FALL WINTER 26'

ETHEREAL SHADOWS

FALL/WINTER 2026 COLLECTION

In his Fall/Winter 2026 collection, **Ayman Lahmouni** explores the delicate interplay between light and shadow—between what is revealed and what remains untold. Ethereal Shadows is a poetic ode to feminine power and timeless allure, merging the structural discipline of haute couture with the sensual fluidity of movement.

Each creation captures the quiet drama of winter nights—velvets whispering under moonlight, metallic jacquards reflecting the first frost, and silk chiffons flowing like distant auroras.

Intricate hand embroideries in shades of antique gold, onyx, and smoked quartz illuminate the silhouettes, while sculpted corsetry and draped asymmetries evoke strength, grace, and mystery.

From voluminous evening gowns that command the room to tailored couture suits redefining modern elegance, the collection narrates a story of a woman who is both muse and master of her destiny—captivating, untamed, and infinitely refined.

Lahmouni's signature craftsmanship—seen in the meticulous hand-beading, architectural folds, and couture finishing—elevates every piece into a statement of artistry. The result is a collection that transcends trends, celebrating the eternal dialogue between light, luxury, and the female spirit.
